From the latest number of the Photographic and Fine Art Journal.]

In the whole history of Art in the production of Portraits of the highest order, no single impressment has contributed as much as this new process. All that has contributed as much as this new process. All that has been developed by science in the use of the camera and the light of the sum, so wonderfully successful in the Doguerrentype, Ambrotype and Photograph, have been appropriated by this new process to large pictures on the most perfect and durable of all grounds to receive the pisatic touch and exquisite tint of the actist's brush.

Reat oil paintings in oil grounds upon canvas, such a
has alwa a been regarded by the masters of art as th
best receptable for colors in oil, are now readily produce
with all the truth of the daguerreetype in delineation DIRECTORS. sion, from the miniature up to that of life six maristr

currectypes of persons deceased, with as much truth and accuracy as from the living subject. Stitlings from the living subject are almost entirely dis-nased with, and the fluished portrait delivered in one of so days from the order.

The durability of these oil ground photographs is inured for a hundred years, if desired, as there is to chrunal or foreign matter used or introduced that can in any 50 DOZ. asserted Hair Brushes, from twenty-five control of the sale wholesale and retail by

This Sarce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by
